Negative externalities like pollution justify government regulation, while positive externalities such as education often require subsidies.

## Taxation and Revenue Generation

Lecture notes explore various types of taxes, including income, corporate, sales, property, and excise taxes. They analyze how taxes impact economic agents, their incidence, and efficiency. Key topics include:

1. Tax incidence and shifting burden
2. Optimal taxation theory

1. Principles of optimal public expenditure
2. Cost-benefit analysis in project evaluation
3. Public expenditure management

## Fiscal Policy and Economic Stability

Fiscal policy involves adjusting government spending and taxation to influence economic activity. Notes cover:
