Decide on the method—are you observing during free play, structured activities, or both? Will you use anecdotal records, checklists, or rating scales?

Step 3: Develop Specific, Measurable Items

Ensure each item on the checklist describes observable behaviors rather than subjective judgments. For example:

1. Instead of "child is social," write "child initiates play with peers."

Step 4: Incorporate Timeframes

Include dates or time periods for observations to track progress over time and note changes.
