1. The Accounting Equation

The foundation of all accounting activities is the accounting equation: Assets = Liabilities + Capital This equation underscores the relationship between what a business owns and owes, ensuring that all transactions are balanced and accurately reflected.

2. Double-Entry System

Every financial transaction affects at least two accounts, maintaining the balance of the accounting equation. For example, purchasing equipment with cash increases one asset and decreases another. Key features: - Debits and credits are used to record transactions. - Total debits must always equal total credits. - Ensures accuracy and completeness of records.

3. Accrual vs. Cash Basis

- Accrual Basis: Revenues and expenses are recognized when they are earned or incurred, regardless of cash flow. - Cash Basis: Revenues and expenses are recognized only when cash is received or paid. Senior students should focus on the accrual basis, as it provides a more realistic view of financial health.

Important Financial Statements

Financial accounting culminates in the preparation of key financial statements that communicate a company's financial position and performance.

The initial step involves recording transactions in the journal using debits and credits, following the double-entry principle. Example: - Buying inventory with cash: - Debit Inventory - Credit Cash

2. Posting to Ledger Accounts

Transferring journal entries into individual accounts (ledgers) for better organization and tracking.

3. Trial Balance Preparation

Summarizing ledger balances to verify that total debits equal total credits, ensuring accuracy before preparing financial statements.

4. Adjusting Entries

Making necessary adjustments for accrued and deferred items to reflect the true financial position.

5. Final Accounts Preparation

Creating the income statement and balance sheet from the adjusted trial balance.

Understanding and Applying Key Accounting Concepts

To excel in financial accounting, students must grasp pivotal concepts that influence record-keeping and reporting.

1. Capital and Drawings
